Dear Sir:

In reply to the Notification of Defective Response mailed February 27, 2007, provided herewith is a corrected copy of a "Sequence Listing" submittal for the above-identified application in paper format (.pdf file) and computer readable form (.txt file), in accordance with the requirement of 37 C.F.R. §§ 1.821(e) and 1.824. The sequence listing itself has been corrected according to the deficiencies noted in the marked-up "Raw Sequence Listing."

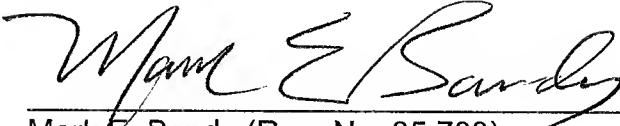

The content of the sequence listing information recorded in computer readable form is identical to the written sequence listing included in International application PCT/US2004/021487 and also identical to the computer readable copy supplied in that international application. No new matter is included in the submission.

Respectfully submitted,

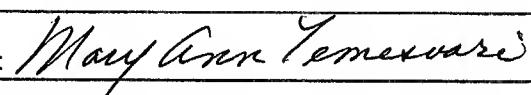

FAY SHARPE LLP
